19th December 2004

Hi

The purpose of this testimonial is to communicate with anyone who is interested in being coached by KickstartCoaching, that this is one journey you “must embrace”.

I met Poppy Pavlides in March 2004, when I was attending one of her introduction night presentations. Actually, I only went there because I was curious and at that stage in my life I was attending many, many free introduction nights to learn more about why I wasn't successful.

Something intrigued me about what Poppy had to say and so I booked myself in for a free session 1. The way she asked me questions was so powerful, that I got a lot of answers already in that session and I knew I somehow had to make it happen, to become her client.

The problem was that I didn't have the money, or so I thought, however, I found a way, I found the money and started my personal coaching with Poppy at KickstartCoaching. In a nutshell she taught me tools and strategies that I still use nowadays to manage my life powerfully in all areas of life. It is not that I don't have any problems anymore, rather, that I now know how to deal with my problems instead of feeling overwhelmed and scared.

Poppy also coached me on my then quite slow business. Her innovative ideas tailored to my personality type helped me to propel my business and to consequently double my income in 2004.

I would like to say that Poppy is brilliant in her delivery because Kickstart Coaching is a true reflection of her purpose in life, empowering others to live to their full potential, be in personal life or business.

Should you have any further questions, please feel free to contact me any time on 0409 979 335.

With best regards
